There has been almost an epidemic of German measles in Jacksonville for several weeks past and many houses have the red card tacked on the front door. But it isn't proper to call them German measles now. The "kids" objected and the doctors changed the name to "liberty" measles.

Co-operation is what they need in Washington along every line. There is not much use in the food administration demanding that all farmers dispose of wheat they have on hand while at the same time the house and senate are talking about \$2.50 wheat.

## PATRIOTISM THAT'S MORE THAN SKIN DEEP.

Talking about seed corn, that indeed is a real patriot, a Will county farmer who is selling seed corn to his neighbors at \$4 a bushel. The price was so much less than that fixed by the seed corn administration that Mr. Eckhardt made an investigation of the quality of this Will county offering. The corn tested out all right and the real fact was explained when the farmer declared "I am an American and I know the government is urging bigger crops, and I know that I am doing the right thing by my neighbors in selling the seed at \$1, even if the seed house did offer me \$10 a bushel."

## JAPAN ON WATCH.

The presence of Japan in Siberia with the statement that quick action will be taken if the situation becomes more threatening should be satisfactory even to those who think of Japan as "the yellow peril." With the present most powerful leaders playing readily into the hands of Germany, certainly more good than evil to the allied cause can come from Japan's presence. Any action there by Japan may not be in accord with President Wilson's war statement but it will at least serve to keep some of the German troops occupied.

## THE POOR FARMER.

No doubt the seed corn situation in Illinois is alarming and there must have been good judgment behind the act of the ad-

sory board of the Illinois department of agriculture in urging Secretary Houston to send \$1,000,000 to this state at once in order to help the council of defense lay in a reserve supply of seed. Somehow one cannot refrain from thinking how financially independent are the farmers of Illinois. They may be poorly awake to the seed corn situation but certainly a great majority of them have a bank credit which enables them to borrow all the money they need for actual farming operations.

## A RED CROSS PROMISE.

If anyone has ever doubted the broad humanity and the efficiency of the Red Cross they should read this message which the organization sends to the boys in camp. Everybody knows that Red Cross promises are kept. Here is the message.

"The Red Cross sends this message to the boys in camp: 'Do you know that the Red Cross is doing every thing possible now to prevent your loved ones from suffering because of your absence? Are you anxious about the people at home? Is your wife lonely, inexperienced or worried? Does your kid brother or sister need advice? Rent due? Insurance due? Sickmess? Family in need of assistance of any kind? Tell the Red Cross field director at your camp about it! Or tell your captain to tell him. Then forget your worries.'"

## THE WISCONSIN CONTEST.

Let us hope that the three-cornered senatorial contest which will be decided in Wisconsin today does not result to the detriment of the people. That's what so often happens in a contest of three candidates, for frequently under such circumstances the man who is really weakest wins. Victor Berger, socialist, has many good things to his credit but this is not a time to run on a platform of "100 per cent peace." As someone has said, "Do not think of peace now, think of victory."

Mr. Lenroot, Republican candidate, has at times been an honest critic of the Democratic administration but has at no time failed to uphold the hands of the president. Wisconsin is a Republican state and Mr. Lenroot should have the nomination even if the President Wilson is using all of his great influence in support of Joseph Davies, former member of the federal trade commission.

To many Americans watching the titanic struggle on the western war front the past week the announcement that General Foch had succeeded Field Marshal Haig was disconcerting. The announced change, if precedents are followed, indicated that things are not going with the allies as they should. But some reassurance comes now with the statement that General Foch was practically in command of the great battle from the very beginning and it was a mere matter of formally in the announce-

ment that he had taken the combined leadership of British, French and American troops.

## THE HAND OF FRIENDSHIP.

You are asked to contribute to the War Camp Community Recreation Fund because broad, national support is necessary to the success of the undertaking. You are really contributing pleasure to the boys who are enroute to battlefield trenches. It is a very satisfying feeling to know that you, personally, have been instrumental in keeping these brave lads safer from moral harm than an army has ever been before. Your contribution buys the brighter side of warfare—dances in private homes, fellowship in club athletic tournaments, choruses. It means that there will always be a safe place for that boy to go. Let there be material help in the outstretched hand of friendship.

## SPRING OCCUPATIONS.

In the spring the voter's fancy turns to thoughts of garden sassa, and he's sowing Hubbard squashes when he isn't shaving grass. He is planting seed potatoes with a fervor all his own, and he soaks the neighbor's chickens with a dornick or a stone, crying loudly in his anguish, in a grief of no avail, that the dingdanged hens and roosters should be pinched and put in jail. In the spring the wife and mother says the house is a disgrace, and she thinks no human being should live in such a place. "It must have a thoro cleaning," she is handing out the dope; and she boils a ton of water and she buys a ton of soap. Then such scrubbing and such washing and such polishing of chairs, while tired father eats his supper half way down the cellar stairs; there are soap suds in the hall, and the soapy water's spilling over ceiling, floor and wall; mother's cleaning up the shanty, there is no admittance now, and tired father and the children use the stable, with the cow. In the spring the poet twitters of the robin and the wren, when he should extol the merits of the empire building hen. In the spring the boys go fishing, to the brooklet in the vale, and returning, bring a minnow, telling how they hooked a whale.

## MORE PARKING SPACE BADLY NEEDED.

If Morgan county owns Central park it would be a fine thing for the county board to make some early provision for additional parking space for automobiles. On the public square Saturday afternoon the cars were so many that in some parts they were parked three deep and at least two deep was the general rule. In fact there was not enough space between the car tracks and the stationary automobiles for people to run other cars in safety.

At the rate at which dealers are now selling and delivering cars, before the coming summer is far gone it will be almost impossible to drive thru the square on busy days. This is a matter of real importance from a business standpoint. The people from the surrounding territory who drive to Jacksonville for business reasons Saturday are entitled to a convenient place for leaving cars while they are attending to shopping. The greater the number of cars that come to Jacksonville and the longer they stay, the better it is for business men. If Jacksonville owns the park this is a problem for the commissioners to meet very soon and even if the city is financially embarrassed, possibly some way could be found for enlarging the parking space without a great deal of expenditure. At any rate this is somebody's business that demands early attention.

## COMING TO THE GRAND THURSDAY

Every one who has read Jean Webster's fascinating story, "Daddy Long-Legs" will welcome the announcement that Henry Miller's production of the story in play form has been booked for an engagement at the Grand Opera House on Thursday, April 4th. This charming comedy, with its remarkable blend of tender pathos, wholesome humor and delightful sentiment, has proved irresistible to theater-goers even during the recent period of business depression caused by the European war.

The comedy ran twenty five weeks in Chicago, where it created a house record at Powers Theater. It has recently ended an entire year's engagement at the Gaiety Theater in New York, where it established itself as the reigning hit of recent years on Broadway. An even more remarkable feat was placed to the credit of Miss Webster's stage story when "Daddy Long-Legs" had a five weeks' run in San Francisco, notwithstanding the fact that no other play in the theatrical history of the state had been offered for a period of time greater than three weeks. The stage story is told in four acts, and the settings provided by Henry Miller are remarkable for their realism and elaborateness.

## MARCH FIRE LOSS SHOWS LARGE SUM

Report of Chief Hunt Which Includes the High School and Trinity Church Fires is of more than Ordinary Interest—Total Fire Loss \$122,600, with Total Insurance Loss of \$104,900.

More than ordinary interest will center in the report of Fire Chief Hunt of fire losses for the month of March. The total probably shows the greatest loss in a single month in the history of the city.

However, practically all of the loss is represented in the destruction of the high school building and Trinity church. There were other minor losses in connection with this loss and also other small losses during the month.

The total value of the property involved during the month was \$352,600 with a total insurance value of \$243,700. The total property loss is given at \$122,600 with a total insurance loss of \$104,900.

Motor Truck No. 1 answered all alarms. For operation during the month it required 20 gallons of gas and three quarts of oil. Truck No. 2 was used at the high school and Trinity church fires and used ten gallons of gas and one pint of oil. All of the reserve apparatus also was used on the big conflagration.

During the month there were twenty-six alarms, but a number of them were resultant from the high school fire and were ineffectual blazes which were soon extinguished. The date, location and kind of fires during the month are given hereunder:

- 1—934 N. Main street, Robert Miller, roof fire.

## A PROFITABLE PORKER.

G. L. Riggs, the local manager of the Hatfield Commission Company of Decatur, is an industrious man and always ready to work but he says he thought if he couldn't add something to his income without work and it occurred to him to try hog raising and he accordingly asked a friend if he had for sale a broad sow. The man replied he had not but would sell a gilt, a young female hog something less than a year old for \$25.00. He thought she would weigh about 195 pounds and told Mr. Riggs to come and see her but the latter replied he didn't care to go but would take her as soon as the man could bring her in which he did soon after and a few days ago, about a month after he had bought her she farrowed eleven pigs and is successfully rearing nine. She is a full blood Jersey Red and Mr. Riggs has refused \$50 for the family as he thinks he will realize much more than that from the lot.

## Y. M. C. A. NOTES

**JUNIOR A CLASS CHOSEN IN TEAMS.**  
The Junior A Class of boys at the "Y" were chosen up into the gymnasium last Friday afternoon, and will enter the all-round championship meet which is now on in the "Y" Gym.

The Class will meet as usual on Tuesday and Friday afternoons at 4:30.

The events for Tuesday are the high jump and the dips. Each boy will be graded individually so that he will know at any time how he stands with the rest of the class. The teams will also compete against each other and each class period will have a relay race with the three teams competing against each other.

Those being on time at each class will get 100 extra points.

An added feature is that if a boy gets a new member he will be given 50 extra points. This will be a big handicap for the larger boys for they will be able to get the best record in the events but the smaller boy will work harder in being on time and getting the new member.

Another feature to the new member proposition is, that any boy getting three new members will be given a beautiful Y. M. C. A. pin. The pins are on exhibition now in the Y candy case.

**JUNIOR B CLASS.**  
The Junior B Class were also chosen up Thursday of last week and the teams were given in Friday's issue of this paper.

The first or the eight days' meet of this class was put on Monday afternoon at 4:30 and some of the boys made some very remarkable records especially in the dips, Cherry making 2 and Hart 2. This is a good record for high school boys, and considering the fact that these boys are of the ward schools it is almost beyond belief.

In the high jump Hoover was first with 2 feet 6 inches, while Bergstrom was second with 3 feet 5 inches. The first days' events leaves the following scores for those entered:

Farrell Crabtree, 6th, 1st place.  
John Cherry, 1st, 2nd place.  
Lloyd Harrison, 1st, 2nd place.

## What the Threads Are For

Every one of the 196,999 threads in the Threaded Rubber Insulation of the Still Better Willard has a definite mission.

Every thread allows free passage to the battery solution. Through this multitude of tiny paths the chemical action which means a good, strong current goes on with perfect freedom.

No insulation ever used has equalled hard rubber in ability to resist every-day wear and tear. No method of conducting current through the hard rubber has the efficiency of the tiny threads. And the combination is found only in the Still Better Willard Battery. Let us tell you more about this insulation and the battery that uses it.

KIDNEY TROUBLE NOT  
EASILY RECOGNIZED

Applicants for Insurance Offer  
Rejected

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Jacksonville Daily Journal.

## STOMACH UPSET?

Get at the Real Cause—Take  
Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, azy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without purging, cramps or pain. Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

SCIENTISTS VERY BUSY  
WITH THEIR WAR WORK

MEMBERS OF THIS ORGANIZATION ARE CONTRIBUTING LARGELY FOR COMFORT OF SOLDIERS.

Christian Scientists in Jacksonville will be interested in the extent of the work for the advancement of American interests in the war, and the comfort of the soldiers at the front that is being done by the Christian Scientists throughout the United States. This denomination is fully awake to the demands made upon all patriotic citizens, and locally as well as throughout the nation, is responding to the demands made.

The following article will tell something about the work this denomination is doing:  
About 2,500 articles were prepared and sent to enlisted men and war refugees by the Comforts Forwarding committee, conducted by the Christian Scientists of the Boston district, and located at 328 Baylston street, Boston, during the first three months of the committee's work. Among the goods forwarded were 16,000 knitted articles and comfort kits, 2,400 articles of new clothing for the French, Italian and Belgian and Serbian refugee children, and about 200 selected hand or re-made articles or clothing.

**KNITTING RECORD**  
One American ship has been supplied with enough knitted goods, totaling 3,500 pieces, to equip all the sailors on board. A large number of the knitted garments and other comforts have been turned over to the relief committee of the Boston district, which in the direct communication with the people of their respective countries, notably the British, French, Italian and Belgian, and the latter became captains of teams of ten others, whom they in turn instructed. Two groups of team captains meet at the committee's rooms every day to receive instructions and material for use by themselves and members of their respective teams, who work at leisure moments at home. Thus the sewers are banded together for this particular part of the committee's program and they are turning out an average of 1,000 garments a week. In this work they have been greatly assisted by one of the patriotic manufacturing companies of Boston, which offered and has undertaken to do all the cutting required for these garments.

Before beginning to sew for the refugees or any country, the committee ascertained not only what articles were needed but also the form and material desired, so far as was possible. It was learned, for instance, that so common an article of general use as a pillow-case was, in one country for which the teams were sewing, not given, and the finished garment is returned to the committee's headquarters when ready. In addition there are four knitting machines in operation, on each of which it is possible to knit a pair of socks in two weeks.

Much praise has been given to the Comforts Forwarding Committee of the Christian Scientists by persons associated with other war relief organizations for the high quality of the articles produced and the systematic manner of their production. Nearly 500 such committees are conducted by Christian Scientists throughout the United States.

## ENTY OF CHANCES TO BUY THRIFT STAMPS

COMMITTEE HAS NUMEROUS  
AUTHORIZED AGENCIES.

Hundred Per Cent Plan Sure  
to Prove Popular—Big Al-  
lotment for Morgan County.

People in Jacksonville do  
not buy Thrift Stamps and War  
Stamps Certificates liberally if  
it is not because of a lack of  
information. The sales commit-  
tee has established a great many  
agencies in this way taking  
advantage of the convenience of all  
citizens. No matter in what part  
of the business or residence dis-  
trict you happen to be you will  
find an authorized agency for the  
sale of stamps near at hand. A  
splendid opportunity is thus af-  
forded for a good investment and

at the same time the purchaser  
will be acting in the line of pa-  
triotic duty.

100 Per Cent Firms.

The committee has a record of  
a number of establishments  
which are rated as 100 per cent—  
that is, every employee is a stamp  
owner. No doubt the list below is  
incomplete and the committee  
would like to be informed of the  
names of any firms which should  
be included in addition to

J. Capps & Sons,  
J. Herman,  
Clover Leaf Casualty Co.  
Rabjohns & Reid,  
H. Phelps Dry Goods Co.,  
F. J. Waddell & Co.,  
Hopper & Sons,  
Myers Bros.

Attractive posters and other  
excellent advertising matter re-  
ceived from the state organiza-  
tion has been distributed and  
merchants who receive this mat-  
ter are urged to keep it constantly  
displayed. Also the sale of  
stamps has been going on steadily  
and the record of this county  
compares favorably with most  
other counties of the state, the  
sales have by no means come up  
to the expectation of the commit-  
tee. Morgan county's allotment  
for the year is \$688,400 and the  
total sales thus far have been  
about \$62,000. No matter how  
small the amount you can spare  
for investment nor how large, it  
will be well placed if Thrift and  
War Savings stamps are pur-  
chased. This indeed is the kind  
of patriotism that pays, for the  
security is absolute and the rate  
of interest liberal. The author-  
ized agencies for the sale of stamps  
and certificates follows:

## DEATHS

Cratz.

Dr. Charles E. Scott yesterday  
received from the Pitman &  
Moore Co. of Indianapolis notice  
of the death of Bert Cratz, well  
known to a number of Jack-  
sonville people. For a number  
of years he has represented the  
well known Pitman & Moore  
Drug Co. in this locality. His  
death occurred at the Methodist  
hospital in Indianapolis, March  
25, after a brief illness from  
pneumonia. The firm in men-  
tioning the death referred to him  
as one of the most capable, con-  
scientious high class men that they  
had ever known and expressed  
the thought that he and his  
splendid good fellowship would  
be missed thruout a wide terri-  
tory.

BAPTISMAL SERVICE.

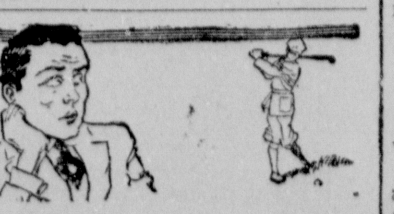

A very impressive ceremony  
took place Sunday afternoon at  
the home of Mr. and Mrs. J. H.  
Russell on Caldwell street when  
their little daughter, Lella Fran-  
ces, was baptized. Dr. E. B.  
Landis, pastor of Westminster  
church, performed the sacred rite  
with S. O. Barr, grandfather hold-  
ing the bowl. The little child  
wore the baptismal robe which  
has been used in the Russell fam-  
ily for more than forty years.  
Relatives and a few close friends  
made up the company present.

FALSE FIRE ALARM

The fire department was called  
to the residence of Amos Hender-  
son, 412 East North street Sunday  
morning at 9 o'clock. An over-  
heated furnace was the cause of  
the alarm. No damage was done.

## You'll Be Sorry

There is no worse folly nor one more  
certain of distressing consequence than  
to neglect a cold. It leaves "a cough  
that hangs on," it threatens you with a  
most serious condition.

Foley's Honey and Tar  
gives the curative influence of the pine  
balsam, together with the mollifying  
effect of the honey and other healing  
ingredients. It stops the cough, eases  
the sore feeling in the chest, and raises  
phlegm easily. It imparts a pleasant  
feeling of warmth and comfort.

J. D. Foleys, Winston, Ga., writes:—  
"Foley's Honey and Tar took all the soreness  
away and cleared my lungs of all congestion."

**KNIGHT STEMLAR  
HEAR ANNUAL SERMON**

Sermon Delivered by the Rev. R. B. Wilson at State Street Presbyterian Church—Beautiful Program of Easter Music Given.

Hospitaller Commandery Knights Templar observed Easter with the usual ceremonies and in a very fitting manner. A large delegation assembled at the asylum on West State street and in command of Eminent Commander Sir Knight P. V. Coover, made an

imposing appearance as they marched to State Street Presbyterian church.  
Sir Knight Prelate, Julius G. Strawn, and Rev. R. B. Wilson conducted the services in a very impressive manner while the music was of a superior quality. The program as printed was carried out. The beautiful ritual of the order was read and the sermon by the pastor was a fine effort. A few thoughts are presented:  
**Significance of the Day**  
Sir Knights and brethren: I deem it a great privilege and pleasure to address you on this Easter day, a day which means so much to you and to all the

world. It is redolent with music and song. With all that is beautiful, sublime, hopeful and ennobling for it commemorates Him who broke the bars of the tomb and brought life and immortality to mankind. Mingled with the joy of the occasion is a feeling of sadness for across the seas there is being fought a mighty conflict in which many precious lives are being sacrificed.  
During the French revolution the question arose: Does God exist? The answer was one which drenched the earth in blood till the Creator was acknowledged. Today the same question is being asked. The words of the bible are the answer. Christ conquered death and burst the bars of the tomb opening the gates of life. By his life, his deeds and his resurrection. The resurrection of Christ was the grand climax of all, and it proved him to be the divine Son of God. Now to the believer death is but the gateway to eternal life with the Son Immortal.

**No Faith in Future**

The Orient believes in eternal sleep while the west seeks endless life. It is said that five per cent of the students in a large Japanese university commit suicide when for any cause troubled or discouraged they do not believe in the immortality of the soul. The people of Egypt believed that if the embalmer could preserve the body the soul would one day return to it. In Mesopotamia, Babylon and Greece the pictures of death were sad and gloomy. The literature of Rome is uncertain regarding the future. The Sadducees did not believe in the immortality of the soul. So there is but one Name given to men that insures a life beyond the grave and that is Christ who rose this day to prove the truth of His assertion. Bringing gloriously life and immortality to light.

He made it possible for us to say that to live is Christ and to die is gain. A man on the sinking Lusitania said that death is a beautiful adventure. What can be more beautiful than the sentiments expressed by Tennyson in his immortal poem:

"When I pass over the bar?"  
This is a noble day for Christ gives us the proper estimate of life. When the veil is lifted and we see beyond the grave knowing that the soul is immortal and we shall rise as even did our blessed Redeemer when with Him we may say:

"Oh death; where is thy sting; Oh grave, where is thy victory?"  
Death is abolished and light and immortality have been brought to light. Christ has opened a gate which no man can shut. He has lain in the tomb and has risen triumphant. So on this glad Easter day may we all feel that with Him we may have a part conquering death and sin if we will but acknowledge Him before men and abide by His precepts.

Miss Hallie Withee of the force at F. J. Waddell & Co's was expected back yesterday from Galesburg where she went to spend Sunday with friends.

BAYONNE, N. J.**

Dear Sirs:—

I am well pleased, and have been greatly benefited by the use of "Nujol". I could not well get along without it; considering my age (76), it is the very thing I need.

Alluwe, Okla.,  
Dec. 26, 1916.

Yours sincerely,  
Chas. G. Mehlin.

**MR. MEHLIN** frankly says that he could scarcely get along without Nujol! That's because Nujol restores regular bowel-habits, without griping or physicing, or any reaction, whatsoever, and is therefore the safest, most natural remedy obtainable. Positively safe for everybody, old and young.

Nujol never loses its power to relieve. It naturally strengthens bowel action, but never artificially stimulates it.

By all means try Nujol—the best means of relieving chronic or occasional constipation. To be "regular as clockwork" make your own test of Nujol.

**ABSOLUTELY HARMLESS**

There are no substitutes — there is only Nujol.

At every drug store. Send 50c and we will ship new kit size to soldiers and sailors anywhere.

**Nujol for constipation**

Regular as Clockwork

**At Home and Overseas**  
Keep your shoes neat and preserve the leather

A CIVIL WAR SONG.  
An esteemed friend handed the  
following old time civil war song to  
the Journal yesterday. It will  
bring vividly to mind those stir-  
ring days when read by veterans  
who served in those trying times.  
It was written by William Tucker  
of Chicago.

Dearest love do you remember,  
When last we did meet,  
How you told me that you loved  
me.

Knocking at my feet?  
Oh! how proud you stood before  
me  
In your suit of blue.  
When you vowed to me and coun-  
try  
Ever to be true.

Weeping sad and lonely,  
Hopes and tears how vain!  
When this cruel war is over,  
Praying that we meet again!

When the summer breeze is sigh-  
ing  
Mournfully along,  
Or when autumn leaves are fall-  
ing.

Sadly breathes the song,  
Of dreams I see thee lying  
On the battle plain,  
Lonely, wounded, even dying,  
Calling, but in vain.

CHORUS—Weeping sad, etc.  
If amid the din of battle,  
Nobly you should fall,  
Faraway from those who love you,  
None to hear you call.

Who would whisper word of com-  
fort.  
Who would soothe your pain?  
Ah! the many cruel fancies  
Ever in my brain.

CHORUS—Weeping sad, etc.  
But our country called you dar-  
ling.

Angels cheer your way—  
While our nation's sons are fight-  
ing.

We can only pray.  
Nobly strike for God and Liberty,  
Let all nations see  
How we love the Starry Banner,  
Emblems of the Free.

CHORUS—Weeping sad, etc.

SHILOH  
Our entire community was sad-  
dened by the death of a neigh-  
bor, Will Dodsworth, and the  
family has entire sympathy  
of the community in their bereave-  
ment.

Our best farmers in this section  
have their stalks plowed under,  
and turning soil, for early plant-  
ing.

Walter Bourn is now able to  
wear his coat, being a cripple for  
the past three weeks.  
George Mason and sons, Ellis  
Petefish motored to city last Mon-  
day in Mr. Mason's Dodge car.

Mrs. Arch Bridgman drove to the  
city Saturday.  
Mr. and Mrs. A. W. Petefish,

## LOW GRADE CORN

HAS BEARISH EFFECT  
CHICAGO, April 1.—Arrivals of  
low grade corn had a bearish effect  
today on that market. Prices closed  
unsettled, but lower with May  
contracts finished at 56¢. The  
outcome in provisions ranged from 2½  
cents to a rise of 5¢.

Depression in the corn market de-  
veloped in the main after the cash  
dealings had shown that poor to ro-  
ten samples had fallen in value 20¢  
a bushel.

A further bearish influence was that  
the movement of primary points  
continued materially in excess of last  
year.

## LIGHTNING STRIKES GREGORY BARN

Structure Totally Destroyed —  
Thirteen Fine Percheron Horses  
Also Burned—Loss Will Exceed  
\$20,000 Which is Fully Covered  
by Insurance.

White Hall, April 1.—Lightning ignited the main horse barn at Gregory farm, immediately south of White Hall, shortly after four o'clock this morning, completely destroying the handsome structure and thirteen head of Percheron horses, including the show herd that has been one of the leading attractions at the big shows for the past two years. All were fully insured.

The barn was comparatively new, being completed some three years ago at a cost of about \$10,000.

The headliner of the show herd, a stallion that won first honors at the International Live Stock Exposition in 1917 and again won first honors at the Wichita show this winter, was saved. Two Carnot mares were saved.

Carnot, the grand champion Percheron stallion of America and France, is kept in separate quarters. This stallion alone is valued at \$40,000. Gregory farm is one of a few leading live stock breeding establishments of America, and the winnings of the show herd are matters of familiar knowledge in live stock circles. Temporarily the loss of the famous herd is a distinct loss to the Percheron breed.

## CRAP SHOOTERS ARRESTED SUNDAY.

Sunday the police force raided the house of Walter Hill on South Sandy street and captured thirteen men who were engaged in shooting craps. Later three more men were arrested for the same offense near the Wabash railroad on North Sandy street. All of the men were fined \$10 and costs.

## COUNCIL DISCUSSES ROUTINE BUSINESS

Monday Morning Session of City Commissioners was Unimportant One—Work On West State Street Paving to Be Pushed Steadily Forward—Water Supply in Morgan Lake Low.

When the city council held its session Monday morning practically all the business in discussion was of an informal kind. In reporting for departments, Mr. Vasconcellos mentioned that one of the motors at the north side station was again in order after some repair work. The supply of water at Morgan lake is very low but the commissioner hopes that there will be some increase in the supply as a result of the rain Sunday night and Monday. While very little rain fell here there was a heavy rain in territory south of Jacksonville. Mr. Martin made mention of a number of bootlegging arrests made the past week, which have already been recorded, and also referred to an arrest made Sunday. The commissioner said that the present police force is very small but he has the promise of two more men who are expected to go to work during the present week.

Mr. Cox said that his department was still cut down by lack of men but was using the few workers in the department for all classes of employment and had just taken them from some sewer repairing to clean up the streets in the business district.

### New Flag to Float

Mr. Widmayer said there was nothing new in the financial status of the city of an encouraging kind. The commissioner mentioned that the new flag for the city hall building had just been received and will be displayed Saturday, April 6, Liberty day, the first anniversary of America's declaration of war upon Germany.

The commissioner also referred to the fact that a number of cities are planning special observances for the day.

Mayor Rodgers said that Contractor Bretz has a number of men at work on the street paving and expects to increase his force. Unless there is delay in receiving materials the paving work which Mr. Bretz has under contract will be pushed forward steadily. Public Engineer Henderson said that Mr. Bretz had told him that he particularly needed several cars of sand. Until instructions are changed railroad authorities cannot permit the use of sand if this material is to be used in paving of work of that class. This engineer said seemed to be an unusual state of affairs because there are said to be more than 150 empty coal cars in Springfield as the demand for coal has slumped off the very material. In response to a question from the mayor, Mr. Henderson said that the brick manufacturing company was willing to furnish curved brick desired for paving between the rails of the West State street car line but that the company could not promise early delivery. He said also that the Standard Paving Co. had not indicated when they will begin work. As they have practically all materials at hand for the completion of the West State street pavement it is expected that their force of men will be here at an early date. In all probability the plan will be to have the brick work outside the rails finished, the asphalt laid and the paving work between the rails postponed until the desired material can be secured.

Working On Water Report  
Mayor Rodgers referred to a copy of a letter that he received from the Pearce-Greeley Engineering Co., referring to the report to be made on the Jacksonville water supply situation. The letter indicated the general outline that the report will cover and stated that the firm hopes to have this report in the course of a week or ten days. As Mr. Vasconcellos Monday received request for some water measurements and some record as to engine strokes at the south side plant it is not at all probable that a report can be had in less than a week or possibly longer.

Mrs. A. C. Rexroat has returned from an extended sojourn in Miami, Florida, and until May first will be with her daughter, Mrs. Grant Gaines, at South Church street after which she will take possession of her place on South Diamond street.

### EYES OF THE WORLD

Large audiences saw the picture of Harold Bell Wright's novel "Eyes of the World" at the Grant Monday afternoon and evening. The scenes for the most part are laid in the mountains and offer an excellent field for the camera and all these have been taken advantage of. The photography is excellent and the cast which made the picture is one of the best ever gotten together. One of the features of the production is the incidental music which is rendered in a capable manner by the Grand Opera House orchestra. The picture will be shown again this afternoon and evening.

A man will have to advance his time piece more than an hour to get ahead of the hat styles shown by FRANK BYRNS' Hat Store. Open 7 a. m., close 6 p. m., new time.

## FURTHER FACTS ABOUT SEED CORN SITUATION

Letter Received by County Agent G. B. Kendall Indicates that Large Amount of Seed Corn Will Have to Be Secured Outside Counties in Which Corn is Grown.

Further facts about the state's seed corn situation are indicated in a letter received by County Agent G. B. Kendall, just issued by W. F. Handschin, Vice Director of agricultural extension service of Illinois. This letter indicates that it will take over 1,000,000 bushels of seed to plant the normal state acreage and that indications are that from 100,000 to 200,000 bushels will have to be secured from outside the counties in which the corn is grown. The letter to Mr. Kendall follows:

Urbana, March 30, 1918.

To the Farm Advisers:  
The official Samples of Seed Corn being sent to the University for Germination Tests are showing that much Good seed is being offered to the Seed Corn Administration.

Most of this seed is coming from southern and southwestern Illinois, from counties as far north as Pike, Scott and a few still farther north. It is being selected for early maturity and adaptation to sections to which it is to be shipped. Although many of the samples are testing between 70 and 80 percent, the majority of them are running about 80, many above 90.

It will take over one million bushels of Seed corn to plant the normal state acreage. The best estimates are that of this amount, from 100,000 to 200,000 bushels will have to be shipped in from outside of the county where it is to be grown.

The advisory committee to the Seed Corn Administration and the bankers who are financing this work have agreed that a surplus of 25,000 bushels is the maximum amount that can be contracted for in advance of definite orders. From this you can see that only orders, definite orders, will enable the Seed corn administrator to get out seed corn.

If you are not practically certain that all of the farmers in your county have good seed or will be able to get it, you can do so more valuable work in the next twenty days than take orders for seed corn.

We know you have many other pressing duties but this is positively the most important in our opinion. You may hate the Kaiser, or you may have other personal likes and dislikes, but in so far as you are interested in the food production, there is only one question now. "Will your farmers have good seed corn on April 20th?"

## CANTATA AT BROOKLYN.

An Easter Cantata was given at Brooklyn church Sunday evening which was heard by a large audience. The Cantata was under the direction of Miss Mary Lindsey and Miss Ellen McCurley served as accompanist. The program as carried out was published in Sunday's Journal.

## AN APPRECIATIVE GIFT.

For several months Rev. F. M. Rule, D. D., has been serving the Congregational church as temporary pastor and with great acceptance. His sermons have been giving good satisfaction and his conduct at the Wednesday evening meeting has been in accord with

the wishes of the people and a very cordial feeling has been established between him and the people whom he has served temporarily. Last Sunday his Easter sermon was a fine effort and it was also his last as he expects to be away next Sunday and the Sunday after the new pastor, Mr.

Collins, is expected. As a token of appreciation some beautiful Easter lilies were sent the reverend gentleman by the church and greatly appreciated by him.

Grant Gaines came over from Beardstown Sunday to be with his family on South Church street.
